

What's the Circle of Sponsors?

It's an inspiring movement of influential women and men who believe that every single mother should be able to reach her full potential and raise her child in a healthy environment.

Members of the circle are contributing to the success of our first major \$2M campaign, which aims to open a second facility. This will make it possible to double our capacity for action by offering 50 additional housing units, new places in early childhood centers and intervention with an increased number of recipients.

The objective of the Circle of Sponsors is to raise \$200,000 IN 5 YEARS as part of the major campaign.

Our sponsors
